

Quality Policy Statement

The Quality Management System at Workhorse has been developed and implemented to comply with recognized international, regulatory, and customer standards. This policy is communicated to ensure that it is understood and applied within the organization.

Workhorse is committed to:

Providing our customers with meticulously designed products, including continuous improvement, that meet or exceed all regulatory requirements and customer expectations. We maintain high quality standards as we design and service our products as efficiently as possible.

The Quality Management System is fully supported by top management and all employees at Workhorse.
