Grant program paves the way to same-cost electric trucks

There's never been a better time!

The Texas Environmental Mitigation Program (TxVEMP) is making it more cost effective for private and public fleets to transition to cleaner, more efficient electric trucks.

Program rebates are available now on a first-come, first-served basis.

With over \$50 million in funding remaining, Texas fleets can acquire electric trucks with up to 100% of the incremental EV cost covered by the program.

All Workhorse Class 4-6 cab chassis and last-mile delivery step vans are eligible. Our experts will guide you through the voucher application process, ensuring an efficient and hassle-free experience.

FY23 Texas VW Environment Mitigation Program

Individuals, state, and local governments, corporations, or any other legal entity can apply for program vouchers for all Workhorse vehicles. Eligible applicants may include a corporation headquartered outside of Texas which operates vehicles or equipment primarily in an eligible Texas area.

- First-come, first-served, over \$50 million in available funds
- Scrappage required, 1992-2009
- Public and private entities eligible
- Eligible projects include on-road trucks used for freight and cargo, Class 4-6
- Funding amount dependent on age of scrapped vehicle, whereas amount is the lesser of max % incremental cost or per class max funded amount in the table below:

Eligible Entity	Incremental Reimbursement Rate	Max Class 4 Funded Amount	Max Class 5 Funded Amount	Max Class 6 Funded Amount
Government	100%	\$140,000	\$170,000	\$295,000
Non-Government	75%	\$105,012	\$127,500	\$221,268

*While Workhorse trucks work hard and go a long way, driver habits, inclement weather, and other factors can limit range. Your results may vary.
