

Shuttle Buses

Motiv class 4 electric shuttle buses have been serving communities, hotels, airports and universities since 2015.

Lower TCO and CO₂?

Let us show you how.

After 15 years of carefully listening to and learning from our customers through pilot programs, multi-depot deployments and repeat orders, we have a profound understanding of what fleets need to know, have and do at each stage of their fleet electrification journey.

CLIMATE CONSCIOUS CONSUMERS PREFER SUSTAINABLE BRANDS

The rise in demand for clean transportation is driven by consumers who care about their health and the environment. Air pollution is linked to higher rates of asthma, heart disease and a variety of other health concerns.

The next generation of consumers are 27% more likely to purchase from a brand they believe cares about its impact on people and the planet. Soon to hold most of the purchasing power in the USA, they are also willing to pay more for sustainable products.

Let us help you meet your sustainability goals, strengthen your brand and win new customers.

Class 4 Electric Shuttle Bus Specifications

Motiv Platform	EPIC 4
Passenger Count	Up to 14 passengers, configurations vary
Range	Up to 105 miles
Max GVWR	14,500 lbs
Max Speed	65 mph
Overall Length	24'
Battery Capacity	127 kWh
Battery Technology	Lithium-ion
Gradeability	17%
Regenerative Braking	Configurable
Level 2 AC Charging	19.2 kW / J1772
50% Charge Time	~2.5 hours
100% Charge Time	~8 hours
Level 3 DC Fast Charging (Optional)	60 kW / CCS

Motiv’s Premier Partner Network

MPPN is a commercial fleet resource consisting of leading experts that help drive down TCO and accelerate the time to ROI.

Available to support fleets at any stage of electrification, Partners can:

- Save on hard costs: right-size, simplify, and streamline your deployment.
- Save on upfront costs: minimize capital outlay and maximize your budget.
- Save on operational costs: uncover hidden savings by optimizing operations while earning money.

MPPN PARTNERS

About Motiv Electric Trucks

After 15 years as Motiv Power Systems, the company merged with Workhorse in 2025 and is now a wholly owned subsidiary of Workhorse Group, Inc., forming a leader in medium-duty electric trucks and buses. Together, the company delivers a full range of step vans, shuttle buses, box trucks, and work trucks engineered to eliminate tailpipe CO₂ emissions and particulate matter while providing a more comfortable, safer ride. Headquartered in Detroit, the companies’ offerings combine operational cost savings with measurable environmental performance to help fleets meet increasingly stringent emissions standards and advance their Net-Zero and ESG commitments.

Built with Leading Bodybuilders
