

Box Trucks

Motiv's class 4 electric box trucks have been running daily routes since 2015. Our class 6 offering is coming soon in 2026.

Lower TCO and CO₂?

Let us show you how.

After 15 years of carefully listening to and learning from our customers through pilot programs, multi-depot deployments and repeat orders, we have a profound understanding of what fleets need to know, have and do at each stage of their fleet electrification journey.

CLIMATE CONSCIOUS CONSUMERS PREFER SUSTAINABLE BRANDS

Medium and heavy duty trucking are the lifeblood of commercial and consumer logistics, and in turn, supply chain and transportation account for the largest percentage of emissions.

The next generation of consumers are 27% more likely to purchase from a brand they believe cares about its impact on people and the planet. Soon to hold most of the purchasing power in the USA, they are also willing to pay more for sustainable products.

Let us help you meet your sustainability goals, strengthen your brand and win new customers.

Class 4 Electric Box Truck Specifications

Motiv Platform	EPIC4
Payload	Up to 5,000 lbs
Range	Up to 105 miles
Wheelbase	158", 176", 190"
Max GVWR	14,500 lbs
Max Speed	65 mph
Battery Capacity	127 kWh
Battery Technology	Lithium-ion
Gradeability	17%
Regenerative Braking	Configurable
Level 2 AC Charging	19.2 kW / J1772
50% Charge Time	~2.5 hours
100% Charge Time	~8 hours
Level 3 DC Fast Charging (Optional)	60 kW / CCS

Motiv's Premier Partner Network

MPPN is a commercial fleet resource consisting of leading experts that help drive down TCO and accelerate the time to ROI.

Available to support fleets at any stage of electrification, Partners can:

MPPN PARTNERS

- Save on hard costs: right-size, simplify, and streamline your deployment.
- Save on upfront costs: minimize capital outlay and maximize your budget.
- Save on operational costs: uncover hidden savings by optimizing operations while earning money.

Built with Leading Bodybuilders

About Motiv Electric Trucks

After 15 years as Motiv Power Systems, the company merged with Workhorse in 2025 and is now a wholly owned subsidiary of Workhorse Group, Inc., forming a leader in medium-duty electric trucks and buses. Together, the company delivers a full range of step vans, shuttle buses, box trucks, and work trucks engineered to eliminate tailpipe CO₂ emissions and particulate matter while providing a more comfortable, safer ride. Headquartered in Detroit, the companies' offerings combine operational cost savings with measurable environmental performance to help fleets meet increasingly stringent emissions standards and advance their Net-Zero and ESG commitments.
